

DASH CAM PACKAGES by Thinkware®

Record while on-the-road or when parked

Three Different Packages for Most Any Need!

- Front-facing dash cam for full HD recording through the windshield
- Front dash cam and rear-facing camera for HD recording through the windshield and out the back glass
- Front dash cam and Infrared interior view camera for HD recording through the windshield and of the vehicle interior
- Available for all new Ford and Lincoln vehicles equipped with OBD II

Dash Cam Package

VLH3Z-19G490-C

Whether you're recording your daily commute or making a video of your next road trip, this compact Dash cam captures the scene in full HD 1080p video for playback on your PC or Mac OS computer.

Dash Cam and Rear-Facing Camera Package

VHL3Z-19G490-D

The front-facing Dash cam will capture what's happening in full HD 1080p video. The Rear Facing Camera mounts to the rear window and records out the back in 720p, for quality video of what's going on behind the vehicle.

Dash Cam & Infrared Interior View Camera Package

VHL3Z-19G490-E

The windshield-mounted Interior View Infrared Camera records the interior of the vehicle in Infrared 720p, providing excellent video quality in low light conditions – great for drivers for hire.
